

Anita Le Grelle: *"I have five children. When my last child left home a few years ago to study in England, I suddenly had heaps of time, and for the first time I could focus entirely on my work."*

In 2013, decided to dismantle one of her older artworks. From the clay she retrieved, she made a mould in the shape of a small bowl. The bowl became a plate, which in turn became a dish ... Before she knew it, Terres de rêves had become a successful line of tableware. Year after year, the line has been further expanded with a range of kitchen, table and bathroom accessories, vases, herb pots, and lamps.

The energetic Anita Le Grelle spends up to twelve hours a day in her studio. There, she translates her immense creativity into, among other things, her Terres de rêves line for Serax. In natural shades that reference the earth, sky, and ocean, she continues to expand her dream world. Starting from something that she lacks, or as a creative protest against everyday objects that she simply does not find sufficiently attractive or useful, Anita Le Grelle brings ceramics to life. The refined appearance and the different layers of glaze characterise the entire line.
